## Professional Experience

### Software Developer

*September 2016 - Present | Remote*

Two Story Robot Labs Inc.

Javascript developer for multiple in-house SaaS products, and contract development for both government and private organizations. While I primarily focus on development, the contracting positions often require support, research, and mentoring roles. I develop with technologies such as Node, AWS, C++, Elasticsearch, RethinkDB, AngularJS, CouchDB, Docker, React, and Redux.

### Software Developer

*September 2012 - September 2016 | Kamloops, B.C.*

MemoryLeaf Media Inc.

Full stack web application developer for multiple company SaaS products, as well as external contracting work for government and private organizations. Primarily worked with Javascript. Developed with technologies such as Node, Backbone, Marionette, jQuery, Elasticsearch, MongoDB, AngularJS, CouchDB, RethinkDB, Docker, and React.

### Freelance Web Developer

*April 2011 - November 2012 | Kamloops, B.C.*

Independent Professional

Freelance web developer for a number of local businesses, organizations, and government entities. Many smaller projects focusing on simple web design for commercial businesses or community outreach, with a few larger projects consisting of full stack web applications made to handle large amounts of data and users. Websites were designed in raw HTML/CSS and web applications built with MySQL, PHP, jQuery, and Backbone.
